1 Formal assessment program introduction

This handbook has been developed to provide students and parents with information regarding assessment for the NSW Education Standards Authority (NESA) Higher School Certificate Course.

1.1 Course completion criteria

A student will be considered to have satisfactorily completed a course if, in the Principal's view, there is sufficient evidence that the student has:

- (a) studied the course developed or endorsed by NESA; and
- (b) applied themselves with **diligence and sustained effort** to the set tasks and experiences provided in the course by the school (this is explained in more detail below); and
- (c) achieved some or all of the course outcomes.

1.1.1 Non-completion of a course

Students must provide sufficient evidence of course completion and achievement of course outcomes through the learning experiences provided by the teacher. This may be through assessment tasks, home study, ongoing classwork, ongoing bookwork, class discussions, and preparation for lessons. Failure to provide such evidence may result in non-completion of a course. In such circumstances, students and their parents / caregivers will be notified through an official NESA warning letter.

1.1.2 Non-completion or failure to submit assessment tasks

If a student fails to complete an assessment task specified in the assessment program without a valid and accepted reason, a **zero** mark will be recorded for that task. In such circumstances, students will be notified through an official NESA warning letter. This warning letter will indicate that the assessment task must be completed to fulfil the outcomes of the course, but no marks will be awarded.

1.2 What are the attendance requirements?

For the satisfactory completion of a course, a student's attendance at school is compulsory.

There are five main areas that need to be clarified with regard to absenteeism.

- (a) All absences must be supported by the parent or caregiver providing letter, email, phone call or notification via the Compass parent portal.
- (b) Where absence coincides with either:
 - (i) the due date of an assessment task, or
 - (ii) the date an assessment task is to be held; a medical certificate is required to substantiate the absence.
- (c) Where a student's pattern of attendance interferes with his engagement with a substantial number of course outcomes, that student will be at risk of being awarded a **non-completion** for that course. (Refer to Section 1.3 for information on non-completion of a course). A warning letter will be issued outlining the new requirements and a due date for outstanding work / tasks to be completed to ensure outcomes are satisfactorily met.
- (d) **Approved Leave:** This **may** be granted by the Principal. An Exemption from Attendance Form must be completed prior to the absence, however, this does NOT exempt a student from completing assessment tasks. An AIM form must be submitted if an assessment task is scheduled or due during the approved leave. This must take place before the leave is taken. **Note:** any holidays taken during the year will not be approved under the Education Act. The absence will be recorded as explained but unjustified.
- (e) The College does not encourage leave to be taken during a student's HSC year.

1.3 What happens if I am deemed to have not satisfactorily completed a course?

If a student is at risk of being awarded a non-completion of a course determination, the Principal must give the student and parent / caregiver written warning as soon as possible. This is a NESAs requirement. The purpose of the warning letter is to formally acknowledge when a student has not satisfied the requirements of a course and importantly the action required by the student to address the situation. If the student does not heed the warning letter and continues to not follow course requirements, then another warning letter will be sent. If a student has received two or more warning letters in a subject, towards the end of the course the Principal will make a judgement as to whether that student has satisfactorily met course requirements and if not, will award the student a non-completion award in that course. This may jeopardise the student's eligibility for the award of a Higher School Certificate.

A sample copy of the warning letter is provided on the next page. Parents will receive a Compass notification if a warning letter has been issued and a hard copy of the letter will be sent via registered post. The parent / caregiver is required to complete and return the second page of the letter which acknowledges receipt of the letter.

A student presenting for a Higher School Certificate must satisfactorily complete courses totalling at least:

- (a) 12 units of Preliminary Courses; and
- (b) 10 units of HSC Courses

that satisfy NESAs pattern of study requirements, to be eligible to receive the award of a Higher School Certificate.

If a student fails to meet the College requirements in one or more of these areas (i.e., 1.1, 1.2 and 1.3), he will be awarded a non-completion of a course determination in that course.

<Insert date>

<Parent Address>

OFFICIAL WARNING – Non-completion of a Higher School Certificate Course

Dear <Name of Parent / Caregiver>,

I am writing to advise you that your son, <Insert student name>, is in danger of not meeting the requirements for satisfactory completion of the Higher School Certificate course in <Insert course name>.

The NSW Education Standards Authority (NESA) requires schools to issue students who are in danger of not meeting course requirements with official warnings in order to give them the opportunity to correct the problem. A minimum of two course-specific warnings must be issued prior to a final non-completion of course determination being made.

This is the <first/second/third> official warning we have issued notifying you that <Student first name> is at risk of not completing the above course. *[Delete the following sentence if this is the first warning]* Previous warning(s) were sent to you on <Insert dates>.

Criteria for satisfactory completion of a course

For a student to satisfactorily complete a course, NESA requires the principal to have sufficient evidence that the student has:

- (a) followed the course developed or endorsed by NESA; and
- (b) applied with diligence and sustained effort to the set tasks and experiences provided in the course by the school; and
- (c) achieved some or all of the course outcomes.

Where it is determined that a student has not met the course completion requirements, they place themselves at risk of receiving a determination of non-completion of course requirements. This will mean that the course will not be listed on the student's Record of Achievement and may affect the student's eligibility for the Higher School Certificate. In Year 12, students must make a genuine attempt at assessment tasks that contribute in excess of 50% of the available marks. Completion of tasks worthy of exactly 50% is not sufficient; tasks worth in excess of 50% must be completed. is not currently meeting one or more of these requirements. In particular, he <Insert brief description of the problem(s)>.

Opportunity to Correct the Problem

The following tasks or requirements need to be completed by <Student first name> to correct the problem.

Task or course requirement	Percentage weighting (if applicable)	Original due date (if applicable)	Action required by student	Date for completion

Action by Parent / Caregiver

To support <Student first name> in meeting the course requirements, we request that you discuss this matter with <Student first name> and encourage and support him to carry out the required actions. If you have any questions about this matter, please contact <Insert contact details>.

Please complete the acknowledgement on the next page and return it to the College Reception. Please feel free to add additional comments if you wish.

Yours sincerely,

Director of Teaching and Learning

Principal

2 What happens if I want to repeat a course?

A student may repeat one or more HSC courses but must do so within a FIVE (5) year accumulation period. All satisfactorily completed attempts at HSC courses will be reported on the cumulative Record of Achievement or Result Notice. However, only the most recent attempt is eligible for inclusion in the calculation of a student's ATAR.

3 What do I need to know about assessment tasks?

3.1 What is assessment?

Assessment tasks may take many forms, for example: written examinations, research assignments, projects, presentations, practical or field work reports. Whatever the form, the primary function of an assessment task is to improve learning by providing feedback to students and their teachers about what has been learnt.

During the Higher School Certificate Course NESA stipulates that a formal assessment program is to be developed and implemented in all schools. The assessment tasks undertaken in each subject will help to determine what is to be recorded on a student's Record of Achievement which is the official NESA certificate documenting a student's final results. Measuring achievement at various points throughout the course provides a better indication of student achievement than a single examination.

3.1.1 How am I notified about assessment tasks?

The assessment schedule for all HSC courses can be found in this handbook. In addition to this a student will receive an assessment notification for each task. It is the student's responsibility to keep himself informed about the timing of assessment tasks. It is the teacher's duty to provide the students with **an official notification** of the:

- (a) weighting (e.g., 15%),
- (b) outcomes formally assessed
- (c) task type
- (d) actual date and time (e.g., Period 3, Wednesday, 15 May 2024 – Week 3 Term 2)
- (e) place – *if appropriate* (e.g., Long Reef headland), and
- (f) specific requirements

for each assessment task. This information must be given with **adequate notice** prior to the task due date. Any changes to the assessment schedule will be notified to students in writing.

3.2 What do I do if I need to apply for an extension?

Extensions (extra time to complete an assessment task) may be granted to a student in some cases of illness and/or misadventure. A student must apply in writing at least ONE week before the scheduled date of the task (see 'AIM Form' for details).

3.2.1 Applying for an extension

- (a) Obtain an "Application for Illness and Misadventure Form" (refer to copy in Section 5 of this handbook).
- (b) Complete the form and return it to the Director of Teaching and Learning at least one week before the due date.
- (c) The application will be considered by the Director of Teaching and Learning and KLA Leader of Learning.
- (d) The student will be notified of the decision via Compass if the extension is:
 - (i) **granted**, a new submission date will be given
 - (ii) **declined**, the student has the right to appeal this decision. This is done by writing to the Principal, who will discuss the application for extension with the student, Director of Teaching and Learning and relevant KLA Leader of Learning of Learning / teacher.

3.3 What happens if I am sick, or some other unforeseen circumstance happens?

3.3.1 Illness or misadventure (AIM Form)

If, due to illness, misadventure or compassionate grounds a student either:

- (a) misses an assessment task, or
- (b) is unable to complete an assessment task by the due date, or
- (c) is absent from school just prior to an assessment task being due or
- (d) his performance in a task is affected, or
- (e) is absent on the day an assessment task is due to be submitted.

The student must provide a **medical certificate** (where applicable) on the first day of his return to school. The medical certificate must be submitted with a completed “*Application for Illness/Misadventure Form*” (AIM Form - refer to Section 5 of this handbook). Where possible the College should also be notified via a phone call or email on the morning of the task.

The completed ‘AIM form’, with supporting documentation must be returned to relevant KLA Leader of Learning the next school day. This also applies for approved leave and school events (e.g., sport). Being on approved leave or a school event does not exclude a student from completing an assessment task.

The application will be considered by the KLA Leader of Learning of Learning and the Director of Teaching and Learning. The student will be notified of the decision and if the application is:

- (iii) **granted**, the student will be notified of the outcome
- (iv) **declined**, the student has the right to appeal this decision. This is done by writing to the Principal, who will discuss the application with the student, Director of Teaching and Learning and relevant KLA Leader of Learning of Learning.

3.3.2 Absence from school prior to an assessment task

Students who are absent from school / classes prior to an assessment task may gain an unfair advantage. **If a student is absent the day before a task is due his reasons must be valid and justified.** The College may ask for a medical certificate or other supporting documentation. If the student has no valid reason for his absence a zero mark will be awarded, however, the task still must be completed.

If the absence is due to **illness or misadventure** – an AIM form must be completed; refer to Section 5 of this handbook.

3.4 What happens if I hand in an assessment task late or miss it completely?

3.4.1 Implications of late or missed assessment tasks

If an assessment task is missed or handed in late without a valid reason it will be **awarded a zero mark**. The assessment task must still be submitted so that the student can demonstrate he has completed the requirements of the course.

In the HSC course, students must make a genuine attempt at assessment tasks that contribute in excess of 50% of available marks. Completion of tasks worth exactly 50% is not sufficient; tasks worth in excess of 50% must be completed. Tasks that are submitted after the student has received a zero mark (i.e., task handed in late) WILL contribute to the excess of 50% required.

3.4.2 Establishing the exact due time

Teachers will indicate to students in writing when an assessment task is precisely due e.g., Period 3 Wednesday 15 May 2024. There are some instances though when an exact lesson cannot be specified. In such cases, where only a due date is given, students have until **3:30pm on the due date** to submit an assessment task to their teacher. If the teacher cannot be found students are to submit the assessment task to the **College Reception** where office staff will sign and stamp the time/date on the task and place it in the relevant teacher’s pigeonhole.

3.5 What happens when technology fails?

Failure to complete an assessment task on time due to technological problems e.g., computer failure, printer problems, lost files, computer viruses etc. will NOT be deemed acceptable reasons. Students are expected to keep back up files, rough copies etc. and make appropriate time allowances to avoid such problems.

Assessment tasks must be submitted in the form specified in the task notification. Some tasks will be required to be submitted as a hard copy, some electronically via the Google suite, USB drive or emailed to the teacher. If a task is required to be submitted electronically, sending / uploading to an incorrect e-mail address will NOT be deemed an acceptable reason for a non-submission. It is the student's responsibility to ensure they correctly submit their task in the form specified.

3.6 What happens in the case of malpractice in an assessment task?

Malpractice is any activity undertaken by a student that allows them to gain an unfair advantage over others. It includes, but is not limited to:

- (a) copying someone else's work in part or in whole, and presenting it as their own
- (b) using material directly from books, journals, CDs or the internet without reference to the source
- (c) building on the ideas of another person without reference to the source
- (d) buying, stealing or borrowing another person's work and presenting it as their own
- (e) submitting work to which another person such as a parent, coach or subject expert has contributed substantially
- (f) using words, ideas, designs or the workmanship of others in practical and performance tasks without appropriate acknowledgement
- (g) paying someone to write or prepare material
- (h) breaching school examination rules
- (i) using non-approved aides during an assessment task
- (j) contriving false explanations to explain work not handed in by the due date
- (k) assisting another student to engage in malpractice
- (l) submitting work generated wholly, or in part, by Artificial Intelligence (AI).

A panel comprising the Director of Teaching and Learning and relevant KLA Leader of Learning will review any cases of suspected malpractice. If malpractice is proven a zero mark will be awarded.

3.6.1 NESA Register of Malpractice in HSC Assessment Tasks

Malpractice is any attempt to gain an unfair advantage over other students. Types of malpractice in assessment tasks may include, but are not limited to:

- (a) being in possession of unauthorised notes or electronic devices during a task, test or examination.
- (b) using the words, ideas, designs or workmanship of others without acknowledgement
- (c) copying from another student
- (d) paying someone to write or prepare an assessment task.

The Malpractice Register is administered by NESA and schools must register any student who is in breach.

3.6.2 Is the late submission of a task or a non-serious attempt considered malpractice?

Late submission of assessment tasks may be malpractice where it is proven to be a deliberate mechanism to gain advantage over other students. Students may submit overdue assessment work for a variety of other reasons not considered malpractice.

Submitted work may be classified as a non-serious attempt where it is frivolous or offensive. This may jeopardise a student from obtaining a Higher School Certificate. Failure to reach a level of achievement does not necessarily constitute a non-serious attempt.

3.7 What do I do if I require disability provisions?

If a student requires disability provisions for an assessment task (e.g., reader, writer, extra examination time etc.) it is his responsibility to apply to the Leader of Diverse Learning to establish his eligibility. The student must apply in advance to allow sufficient time for the disability provisions that are required to be put in place. Except for circumstances of illness / misadventure the only students who will be granted disability provisions are those who have applied for and been granted by NESAs.

3.8 What happens if I have transferred into St Paul's Catholic College after assessment has commenced?

If a student transfers into the school after the commencement of the HSC course, he:

- (a) will sit all the remaining assessment tasks as prescribed in the assessment outline.
- (b) may be required to complete alternative tasks for any assessments missed.
- (c) will have their final assessment mark and position in the group determined by their performance in all common assessment tasks and any alternative tasks they have been required to complete.

3.9 What type of assessment feedback will I receive?

Students will be given feedback on how well they have performed on each assessment task. This can take the form of marks, teacher comments, description of the competencies achieved by the student, description of what was not achieved or areas that may need improvement. The type of assessment task conducted will determine the nature of the feedback.

A student can only query the marks awarded and tallied by a teacher for an individual assessment task at the time the task is returned. Every student should reflect upon and analyse the feedback they receive in order to assist their understanding of the concepts examined in the task. Remember that the main purpose of assessment is to improve learning.

3.10 Assessment in Vocational Education and Training (VET) and work placement

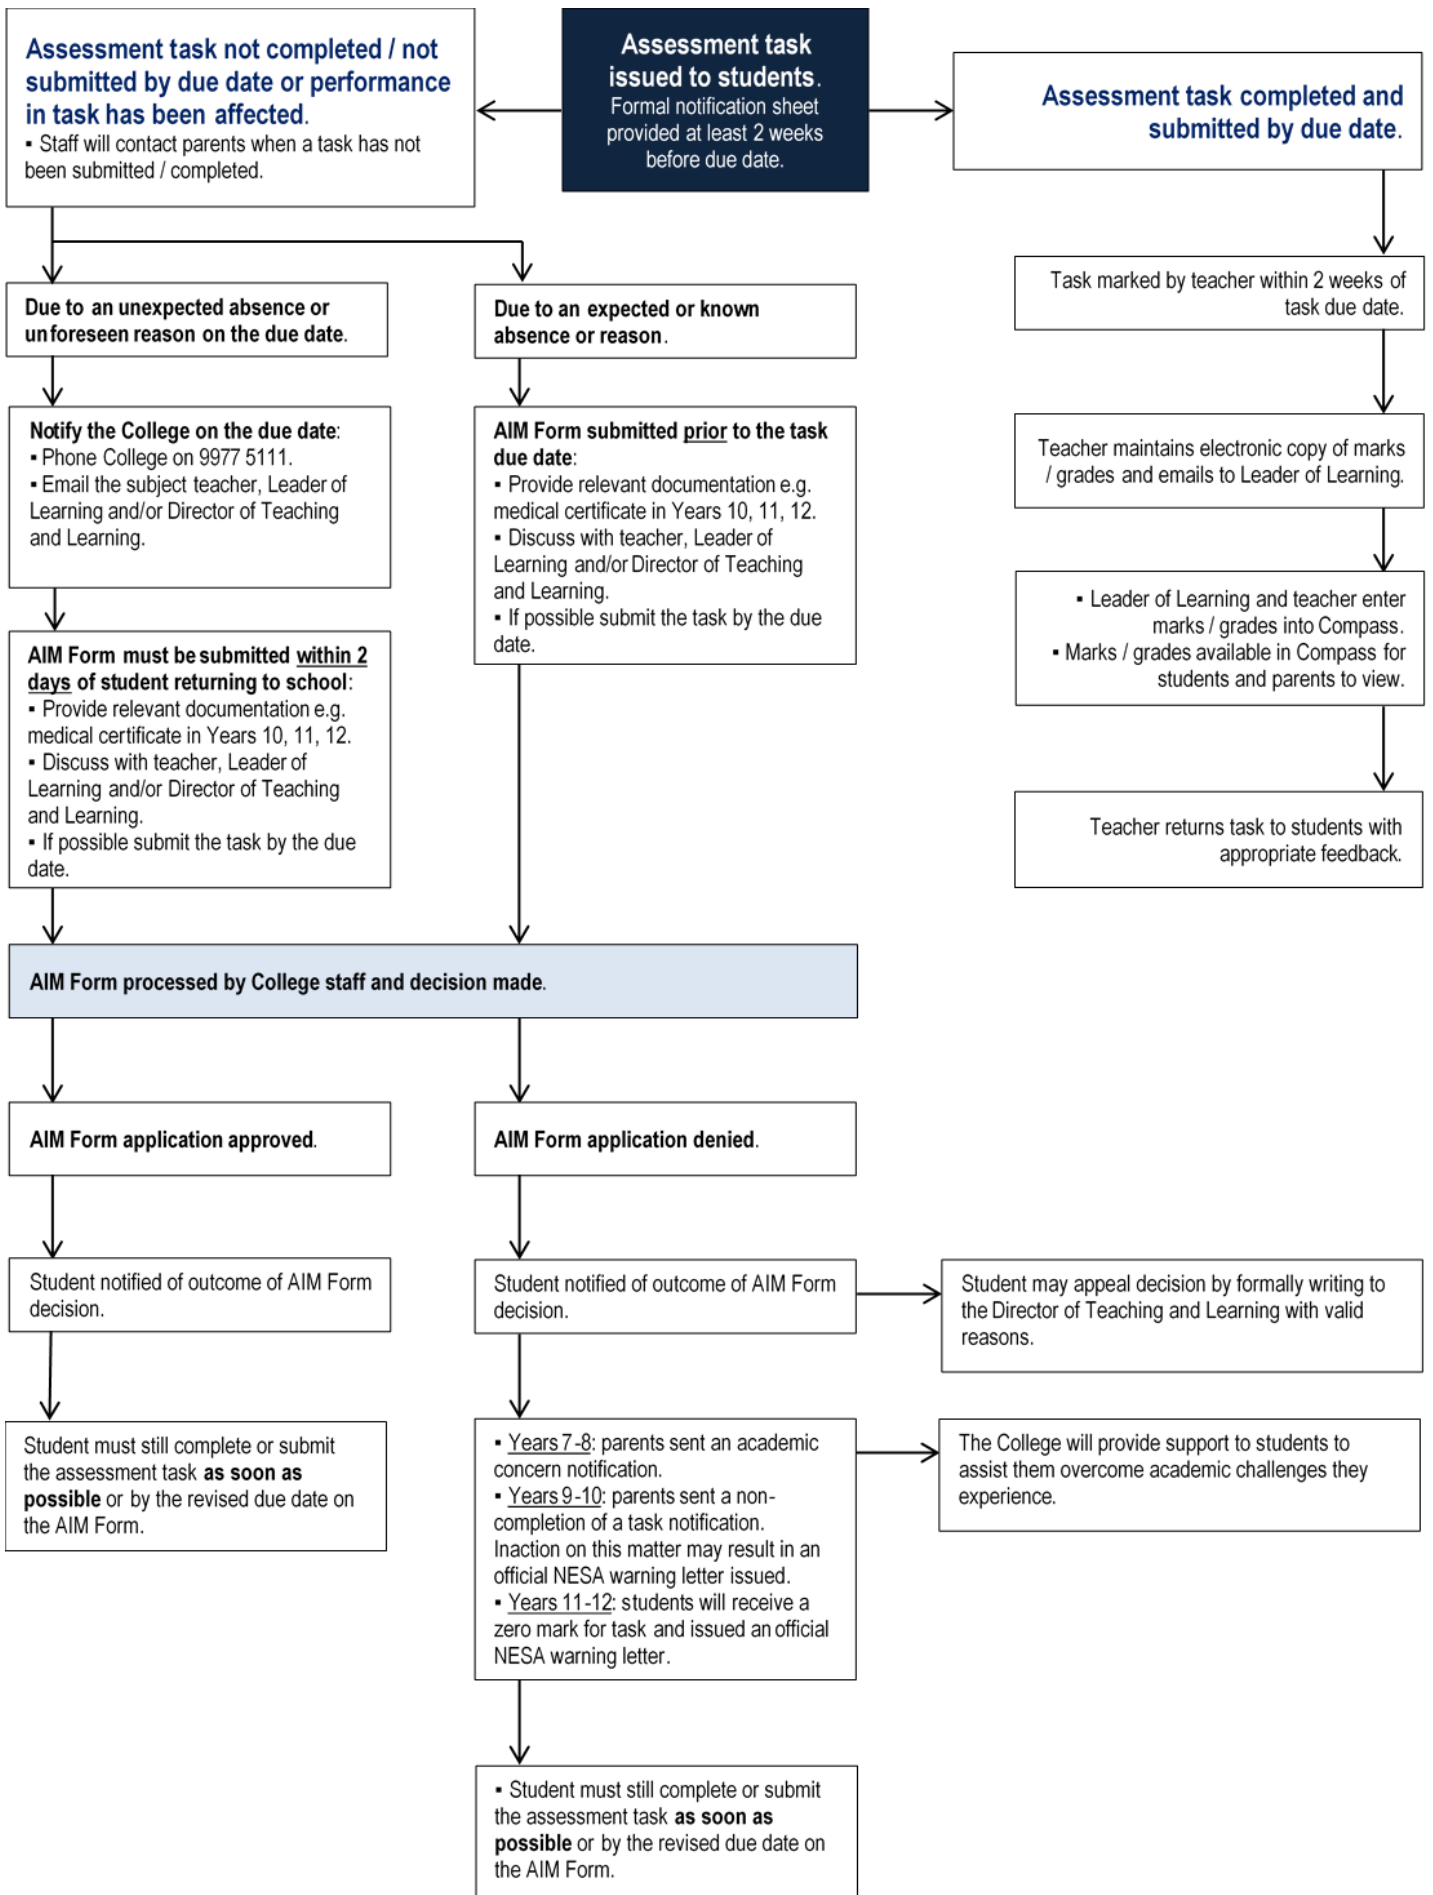

As with all other HSC courses, students undertaking VET courses may be deemed to have either completed or not completed course requirements.

It should be noted that if a student fails to undertake the mandatory VET work placement component, it may be determined that the student has not made a genuine attempt to complete course requirements. In this case the Principal can indicate that the course has not been satisfactorily completed and the student may be issued an 'N' determination.

Prior to commencing work placement, it is the student's responsibility to communicate with each of their non VET teachers regarding course work and upcoming assessment tasks which need to be completed before returning to school. If a student misses an assessment task whilst on work placement an AIM form must be submitted.

3.11 Procedure for the completion of assessment tasks

The flowchart on the next page provides an overview for the completion of assessment tasks. Specifically, it provides information on what procedures and outcomes occur when assessment tasks are not completed or submitted on the due date as well as the procedures followed when tasks are submitted by their due date.

4 Certification of major works

4.1 What courses contain major works?

In the following courses students are required to complete a major work as part of the Higher School Certificate examination: Design and Technology; English Extension 2; History Extension, Industrial Technology; Music, Science Extension and Visual Arts. Students should discuss with their class teacher regarding the suitability of their major work. For further details regarding exclusions see the Director of Teaching and Learning.

4.2 What are the important work, health and safety (WH&S) considerations regarding major works?

With respect to issues of health and safety, the development and selection of student projects, major works, exhibitions and performances should recognise and reflect relevant state and national legislation, regulations and standards including those relating to occupational health and safety, animal welfare, dangerous goods, hazardous substances and weapons. Any HSC project that might be considered dangerous to health or safety may not be marked.

4.3 What requirements must be completed before I can start my major work?

Students are not permitted to commence the major work until the following requirements have been satisfied:

- (a) Have received a written copy of the course specific guidelines for the project component (as outlined syllabus documents).
- (b) Been informed of the WH&S guidelines regarding major works.
- (c) Have received a written copy of the NESA publication – *HSC Assessments and Submitted Works: Advice to Students*.
- (d) Submitted the Practical Project Record of Progress proforma to the class teacher containing an outline of the major work.
- (e) Received written consent for the project to commence from the classroom teacher.

4.4 What will I need to do during the development stage of my major works?

During the development phase for the major works, teachers will regularly monitor and assess the student's progress. Students will need to ensure that process diaries, logbooks, body of work, journals are kept up to date. Students will also be informed about the requirements regarding outside assistance and that they discuss any proposed outside assistance with the class teacher before it is undertaken and that outside assistance is correctly and accurately acknowledged in the major work documentation.

4.5 Submission and certification of major works

The submission dates for completion and hand-in to school for major work projects are determined by NESA and are published in the *Higher School Certificate Practical Examination Important Dates Schedule*.

Students will need to complete a declaration for the submitted works on which the student must certify that the submitted item or performance is their own work. The class teacher and Principal are both required to certify that the major work or performance was developed under the teacher's supervision, was the student's own work and was completed by the due date.

If either the teacher or the Principal is unable to certify any major work or performance, a non-certification report form is to be forwarded (with the major work) to NESA. NESA will then make final determinations on all cases of non-certification and advise both the school and the student at the time of the release of HSC results.

5 What do I do if I want to appeal a result?

A student is entitled to formally appeal in writing to the Director of Teaching and Learning if he is not satisfied with:

- (a) the marks awarded for a particular assessment task; or
- (b) the school's response to his appeal for disability provisions on the grounds of illness/misadventure; or
- (c) the school's decision to award an 'N' Determination for a course; or
- (d) his ranking in a course (note that HSC students will not be informed of their final mark but will be informed of their final rankings; students have the right to appeal the ranking awarded).
- (e) the decision of an AIM form.

If a student intends to appeal to the College for any of the reasons (a) – (d) above, he needs to see the Director of Teaching and Learning for the appropriate documents and procedures.

A student also has the right to appeal to NESAs if he is not satisfied with:

- (a) the school's decision to award an 'N' Determination for a course; or
- (b) his ranking in a course.

Further information about appealing is provided in the *Rules and Procedures for 2024 HSC Candidates* booklet.

5.1 Formal Assessment: Absence–Illness–Misadventure (AIM) Form

This form is to be used when a student is absent for a formal assessment task or unable to submit a task by its due date or time due to illness, misadventure, approved Principal leave or approved involvement in a College event. Where absences are foreseen, the form must be submitted prior to the due date of the task. For unforeseen absences it is to be submitted within two days of the student returning to the College, accompanied by supporting documentation (where applicable).

Student name:

6 Course assessment outlines

The following section contains assessment outlines for all Year 12 Higher School Certificate courses at St Paul's in 2024. Each assessment outline indicates the:

- (a) course category
- (b) syllabus outcomes
- (c) assessment components and component weightings
- (d) focus outcomes assessed in each task
- (e) assessment components for each task
- (f) nature of each task (i.e., what students will be engaged in)
- (g) weighting for each task
- (h) timing of each task

A	Skills in working scientifically	60%
B	Knowledge and understanding	40%

OUTCOMES

Code	Descriptor. A student ...
BIO11/12-1	develops and evaluates questions and hypotheses for scientific investigation
BIO11/12-2	designs and evaluates investigations in order to obtain primary and secondary data and information
BIO11/12-3	conducts investigations to collect valid and reliable primary and secondary data and information
BIO11/12-4	selects and processes appropriate qualitative and quantitative data and information using a range of appropriate media
BIO11/12-5	analyses and evaluates primary and secondary data and information
BIO11/12-6	solves scientific problems using primary and secondary data, critical thinking skills and scientific processes
BIO11/12-7	communicates scientific understanding using suitable language and terminology for a specific audience or purpose
BIO12-12	explains the structures of DNA and analyses the mechanisms of inheritance and how processes of reproduction ensure continuity of species
BIO12-13	explains natural genetic change and the use of genetic technologies to induce genetic change
BIO12-14	analyses infectious disease in terms of cause, transmission, management and the organism's response, including the human immune system
BIO12-15	explains non-infectious disease and disorders and a range of technologies and methods used to assist, control, prevent and treat non-infectious disease

CH11/12-7	communicates scientific understanding using suitable language and terminology for a specific audience or purpose
CH12-12	explains the characteristics of equilibrium systems, and the factors that affect these systems
CH12-13	describes, explains and quantitatively analyses acids and bases using contemporary models
CH12-14	analyses the structure of, and predicts reactions involving, carbon compounds
CH12-15	describes and evaluates chemical systems used to design and analyse chemical processes

Construction (VET)

Course: Higher School Certificate
Course Category: B
Assessment Period: 2024

ASSESSMENT TASKS

- Times are approximate. Exact dates will be confirmed with a minimum of two weeks' notice.

Due Date	Competencies	Task Description
Ongoing throughout Year 12	As applicable to tasks	Students will be provided with numerous written, practical and/or oral competency tasks applicable to course content. Students may have a number of opportunities to gain competency by repeating tasks throughout the year.
Wk. 6 Term 1	Only competencies completed to that date	Half Yearly Examination Refer to the task assessment notification for specific content addressed in this examination.
Wk. 3-4 Term 3	All competencies possible	Trial HSC Examination Refer to the task assessment notification for specific content addressed in this examination. <u>Note:</u> The units of competency marked with an asterisk (*) in the unit list below, are mandatory units. The examination will assess those mandatory units that have been taught during the course.

UNITS OF COMPETENCY

	Unit Code	Unit of Competency
1	CPCCOM1012 *	work effectively and sustainably in the construction industry
2	CPCCOM1013 *	plan and organise work
3	CPCCOM1015 *	carry out measurements and calculations
4	CPCCOM2001 *	read and interpret plans and specifications
5	CPCCCM2005 *	use construction tools and equipment
6	CPCWHS1001 *	prepare to work safely in the construction industry
7	CPCCWHS2001 *	apply WHS requirements, policies and procedures in the construction industry
8	CPCCOM1014	conduct workplace communication
9	CPCCCM2006	apply basic levelling procedures
10	CPCCVE1011	undertake a basic construction project
11	CPCCCA2011	handle carpentry materials
12	CPCCCM2004	handle construction materials
13	CPCCCA2002	use carpentry tools and equipment
14	CPCCBL2001	handle and prepare bricklaying and blocklaying materials
15	CPCCBL2002	use bricklaying and blocklaying tools and equipment

- All students must complete 35 hours compulsory work placement (70 hours over two years).
- On successful completion of all competencies and 70 hours of work placement, students will gain an AQF Certificate II in Construction Pathways (CPC20220) and a Statement of Attainment towards a Certificate II in Construction (CPC20120).

Design and Technology

Course: Higher School Certificate
Course Category: A
Assessment Period: 2024

ASSESSMENT TASKS

■ Times are approximate. Exact dates will be confirmed with a minimum of two weeks' notice.

Due Date	Focus Outcomes	Task type and overview of content and skills addressed in task	Component		Weight (%)	Your Mark	Your Rank
			A	B			
Wk. 7 Term 4	H1.1, H1.2, H2.1, H3.2, H4.1	Presentation Project proposal and design brief.		20	20%		/
Wk. 6 Term 1	H1.1, H2.1, H2.2, H3.1, H5.2, H6.2	In class case study Innovation and emerging technology in class case study.	20		20%		/
Wk. 10 Term 2	H4.2, H4.3, H5.1, H5.2, H6.1	Report MDP impact on society and environment, project development and realisation, evaluation and MDP links to industry.		30	30%		/
Wk. 3-4 Term 3	All outcomes possible	Trial HSC Examination Refer to the task assessment notification for specific content addressed in this examination.	20	10	30%		/
TOTAL			40	60	100%		

COMPONENTS

WEIGHTINGS

A	Knowledge and understanding of course content	40%
B	Knowledge and skills in designing, managing, producing and evaluating a major design project	60%

OUTCOMES

Code	Descriptor. A student ...
H1.1	critically analyses the factors affecting design and the development and success of design projects
H1.2	relates the practices and processes of designers and producers to the major design project
H2.1	explains the influence of trends in society on design and production
H2.2	evaluates the impact of design and innovation on society and the environment
H3.1	analyses the factors that influence innovation and the success of innovation
H3.2	uses creative and innovative approaches in designing and producing
H4.1	identifies a need or opportunity and researches and explores ideas for design development and production of the major design project
H4.2	selects and uses resources responsibly and safely to realise a quality major design project
H4.3	evaluates the processes undertaken and the impacts of the major design project
H5.1	manages the development of a quality major design project
H5.2	selects and uses appropriate research methods and communication techniques
H6.1	justifies technological activities undertaken in the major design project through the study of industrial and commercial practices
H6.2	critically assesses the emergence and impact of new technologies, and the factors affecting their development

Economics

Course: Higher School Certificate

COMPONENTS

WEIGHTINGS

A	Knowledge and understanding of course content	40%
B	Stimulus-based skills	20%
C	Inquiry and research	20%
D	Communication of economic information, ideas and issues in appropriate forms	20%

OUTCOMES

Code	Descriptor. A student ...
H1	demonstrates understanding of economic terms, concepts and relationships
H2	analyses the economic role of individuals, firms, institutions and governments
H3	explains the role of markets within the global economy
H4	analyses the impact of global markets on the Australian and global economies
H5	discusses policy options for dealing with problems and issues in contemporary and hypothetical contexts
H6	analyses the impact of economic policies in theoretical and contemporary Australian contexts
H7	evaluates the consequences of contemporary economic problems and issues on individuals, firms and governments
H8	applies appropriate terminology, concepts and theories in contemporary and hypothetical economic contexts
H9	selects and organises information from a variety of sources for relevance and reliability
H10	communicates economic information, ideas and issues in appropriate forms
H11	applies mathematical concepts in economic contexts
H12	works independently and in groups to achieve appropriate goals in set timelines

English Advanced

Course: Higher School Certificate

TOTAL			50	50	100%		

COMPONENTS

WEIGHTINGS

A	Knowledge and understanding of course content	50%
B	Skills in responding to texts and communication of ideas appropriate to audience, purpose and context across all modes	50%

OUTCOMES

Code	Descriptor. A student ...
EA12-1	independently responds to, composes and evaluates a range of complex texts for understanding, interpretation, critical analysis, imaginative expression and pleasure
EA12-2	uses, evaluates and justifies processes, skills and knowledge required to effectively respond to and compose texts in different modes, media and technologies
EA12-3	critically analyses and uses language forms, features and structures of texts justifying appropriateness for specific purposes, audiences and contexts and evaluates their effects on meaning
EA12-4	strategically adapts and applies knowledge, skills and understanding of language concepts and literary devices in new and different contexts
EA12-5	thinks imaginatively, creatively, interpretively, critically and discerningly to respond to, evaluate and compose texts that synthesise complex information, ideas and arguments
EA12-6	investigates and evaluates the relationships between texts
EA12-7	evaluates the diverse ways texts can represent personal and public worlds and recognises how they are valued
EA12-8	explains and evaluates nuanced cultural assumptions and values in texts and their effects on meaning
EA12-9	reflects on, evaluates and monitors own learning and refines individual and collaborative processes as an independent learner

English Extension 1

Course: Higher School Certificate
Course Category: A
Assessment Period: 2024

ASSESSMENT TASKS

■ Times are approximate. Exact dates will be confirmed with a minimum of two weeks' notice.

Due Date	Focus Outcomes	Task type and overview of content and skills addressed in task	Component		Weight (%)	Your Mark	Your Rank
			A	B			
Wk. 4 Term 1	EE12-2, EE12-3, EE12-5	Portfolio of writing Literary Worlds.	15	20	35%		/
Wk. 10 Term 2	EE12-3, EE12-4	Analytical response Worlds of Upheaval.	20	15	35%		/
Wk. 3-4 Term 3	All outcomes possible	Trial HSC Examination Literary Worlds and Worlds of Upheaval.	15	15	30%		/
TOTAL			50	50	100%		

COMPONENTS

WEIGHTINGS

A	Knowledge and understanding of complex texts and of how and why they are valued	50%
B	Skills in complex analysis; sustained composition and independent investigation	50%

OUTCOMES

Code	Descriptor. A student ...
EE12-1	demonstrates and applies insightful understanding of the dynamic, often subtle, relationship between text, purpose, audience and context, across a range of modes, media and technologies
EE12-2	analyses and experiments with language forms, features and structures of complex texts, discerningly evaluating their effects on meaning for different purposes, audiences and contexts
EE12-3	independently investigates, interprets and synthesises critical and creative texts to analyse and evaluate different ways of valuing texts in order to inform and refine response to and composition of sophisticated texts
EE12-4	critically evaluates how perspectives, including the cultural assumptions and values that underpin those perspectives, are represented in texts
EE12-5	reflects on and evaluates the development of their conceptual understanding and the independent and collaborative writing and creative processes

English Extension 2

Course: Higher School Certificate
Course Category: A
Assessment Period: 2024

ASSESSMENT TASKS

■ Times are approximate. Exact dates will be confirmed with a minimum of two weeks' notice.

COMPONENTS

WEIGHTINGS

A	Knowledge and understanding of course content	40%
B	Geographical tools and skills	20%
C	Geographical inquiry and research, including fieldwork	20%
D	Communication of geographical information, ideas and issues in appropriate forms	20%

OUTCOMES

Code	Descriptor. A student ...
H1	explains the changing nature, spatial patterns and interaction of ecosystems, urban places and economic activity
H2	explains the factors which place ecosystems at risk and the reasons for their protection
H3	analyses contemporary urban dynamics and applies them in specific contexts
H4	analyses the changing spatial and ecological dimensions of an economic activity
H5	evaluates environmental management strategies in terms of ecological sustainability
H6	evaluates the impacts of, and responses to, environmental change
H7	justifies geographical methods applicable and useful in the workplace and relevant to a changing world
H8	plans geographical inquiries to analyse and synthesise information from a variety of sources
H9	evaluates geographical information and sources for usefulness, validity and reliability
H10	applies maps, graphs and statistics, photographs and fieldwork to analyse and integrate data in geographical contexts
H11	applies mathematical ideas and techniques to analyse geographical data
H12	explains geographical patterns, processes and future trends through appropriate case studies and illustrative examples
H13	communicates complex geographical information, ideas and issues effectively using appropriate written and/or oral, cartographic and graphic forms

Due Date	Competencies	Task Description
Ongoing throughout Year 12	As applicable to tasks	Students will be provided with numerous written, practical and/or oral competency tasks applicable to course content. Students may have a number of opportunities to gain competency by repeating tasks throughout the year.
Wk. 6 Term 1	Only competencies completed to that date	Half Yearly Examination Refer to the task assessment notification for specific content addressed in this examination.
Wk. 3-4 Term 3	All competencies possible	Trial HSC Examination Refer to the task assessment notification for specific content addressed in this examination. <u>Note:</u> The units of competency marked with an asterisk (*) in the unit list below, are mandatory units. The examination will assess those mandatory units that have been taught during the course.

UNITS OF COMPETENCY

	Unit Code	Unit of Competency
1	SITXFSA005 *	use hygienic practices for food safety
2	SITXWHS005 *	participate in safe work practices
3	SITXCCS011 *	interact with customers
4	SITHCCC023 *	use food preparation equipment
5	SITHCCC027 *	prepare dishes using basic methods of cookery
6	SITHKOP009 *	clean kitchen premises and equipment
7	SITXFSA006 *	participate in safe food handling practices
8	SITXINV006	receive, store and maintain stock
9	SITHCCC026	package prepared food stuffs
10	SITHCCC024	prepare and present simple dishes
11	SITHCCC028	prepare appetisers and salads
12	SITHCCC025	prepare and present sandwiches
13	SITHCCC034	work effectively in a commercial kitchen

- All students must complete 35 hours compulsory work placement (70 hours over two years).
- On successful completion of all competencies and 70 hours of work placement, students will gain an AQF Certificate II in Cookery (SIT20421) and Statement of Attainment towards Certificate III in Catering (SIT30921)

Industrial Technology (Multimedia / Timber)

Course: Higher School Certificate
Course Category: A
Assessment Period: 2024

ASSESSMENT TASKS

■ Times are approximate. Exact dates will be confirmed with a minimum of two weeks' notice.

Due Date	Focus Outcomes	Task type and overview of content and skills addressed in task	Component		Weight (%)	Your Mark	Your Rank
			A	B			
Wk. 7 Term 4	H3.1, H3.2, H3.3, H4.1, H6.2	Project proposal – interview Idea generation, sketching, modelling and justification of proposed project.		30	30%		/
Wk. 8 Term 1	H1.1, H1.2, H1.3, H2.1, H4.2, H4.3, H5.1, H5.2, H6.1, H6.2, H7.2	Research and management task Address historical developments and new and emerging technologies in the industry focus area. Development of WHS plan.	20	20	40%		/
Wk. 3-4 Term 3	H7.1 and all other outcomes possible	Trial HSC Examination Refer to the task assessment notification for specific content addressed in this examination.	20	10	30%		/
TOTAL			40	60	100%		

COMPONENTS

WEIGHTINGS

A	Knowledge and understanding of course content	40%
B	Knowledge and skills in the design, management, communication and production of a major project	60%

OUTCOMES

Code	Descriptor. A student ...
H1.1	investigates industry through the study of businesses in one focus area
H1.2	identifies appropriate equipment, production and manufacturing techniques and describes the impact of new and developing technologies in industry
H1.3	identifies important historical developments in the focus area industry
H2.1	demonstrates proficiency in the use of safe working practices and workshop equipment maintenance techniques
H3.1	demonstrates skills in sketching, producing and interpreting drawings
H3.2	selects and applies appropriate research and problem-solving skills
H3.3	applies and justifies design principles through the production of a major project
H4.1	demonstrates competency in a range of practical skills appropriate to the major project
H4.2	explores the need to outsource appropriate expertise where necessary to complement personal practical skills
H4.3	critically applies knowledge and skills related to properties and characteristics of materials/components
H5.1	selects and uses communication and information processing skills
H5.2	examines and applies appropriate documentation techniques to project management
H6.1	evaluates the characteristics of quality manufactured products
H6.2	applies the principles of quality and quality control
H7.1	explains the impact of the focus area industry on the social and physical environment
H7.2	analyses the impact of existing, new and emerging technologies of the focus industry on society and the environment

Information Processes and Technology

Course: Higher School Certificate
Course Category: A
Assessment Period: 2024

ASSESSMENT TASKS

Due Date	Focus Outcomes	Task type and overview of content and skills addressed in task	Component		Weight (%)	Your Mark	Your Rank
			A	B			
Wk. 2 Term 1	H1.1, H1.2, H2.1, H2.2, H3.1, H3.2, H5.1, H7.1, H7.2	Design project Database management system design.	20	10	30%		/
Wk. 10 Term 2	H1.1, H1.2, H2.1, H2.2, H4.1, H5.1, H5.2, H6.1, H6.2	Design project Multimedia and decision support system.	20	20	40%		/
Wk. 3-4 Term 3	All outcomes possible	HSC Trial Examination Refer to the task assessment notification for specific content addressed in this examination.	20	10	30%		/
TOTAL			60	40	100%		

COMPONENTS

WEIGHTINGS

A	Knowledge and understanding of course content	60%
B	Knowledge and skills in the design and development of information systems	40%

OUTCOMES

Code	Descriptor. A student ...
H1.1	applies and explains an understanding of the nature and function of information technologies to a specific practical situation
H1.2	explains and justifies the way in which information systems relate to information processes in a specific context
H2.1	analyses and describes a system in terms of the information processes involved
H2.2	develops and explains solutions for an identified need which address all of the information processes
H3.1	evaluates and discusses the effect of information systems on the individual, society and the environment
H3.2	demonstrates and explains ethical practice in the use of information systems, technologies and processes
H4.1	proposes and justifies ways in which information systems will meet emerging needs
H5.1	justifies the selection and use of appropriate resources and tools to effectively develop and manage projects
H5.2	assesses the ethical implications of selecting and using specific resources and tools, recommends and justifies the choices
H6.1	analyses situations, identifies needs, proposes and then develops solutions
H6.2	selects, justifies and applies methodical approaches to planning, designing or implementing solutions
H7.1	implements and explains effective management techniques
H7.2	uses methods to thoroughly document the development of individual and team projects

Legal Studies

Course: Higher School Certificate
Course Category: A
Assessment Period: 2024

ASSESSMENT TASKS

■ Times are approximate. Exact dates will be confirmed with a minimum of two weeks' notice.

Wk. 8 Term 2	H1, H2, H3, H4, H5, H7, H8, H9, H10	Media file and in class written task Focus study 1.	10	10	5	5	30%		/
Wk. 3-4 Term 3	All outcomes possible	Trial HSC Examination Refer to the task assessment notification for specific content addressed in this examination.	20		5	5	30%		/
TOTAL			40	20	20	20	100%		

COMPONENTS

WEIGHTINGS

A	Knowledge and understanding of course content	40%
B	Analysis and evaluation	20%
C	Inquiry and research	20%
D	Communication of legal studies information, issues and ideas in appropriate forms	20%

OUTCOME

Code	Descriptor. A student ...
H1	identifies and applies legal concepts and terminology
H2	describes and explains key features of and the relationship between Australian and international law
H3	analyses the operation of domestic and international legal systems
H4	evaluates the effectiveness of the legal system in addressing issues
H5	explains the role of law in encouraging cooperation and resolving conflict, as well as initiating and responding to change
H6	assesses the nature of the interrelationship between the legal system and society
H7	evaluates the effectiveness of the law in achieving justice
H8	locates, selects, organises, synthesises and analyses legal information from a variety of sources including legislation, cases, media, international instruments and documents
H9	communicates legal information using well-structured and logical arguments
H10	analyses differing perspectives and interpretations of legal information and issues

Mathematics Advanced

Course: Higher School Certificate
Course Category: A
Assessment Period: 2024

Wk. 8 Term 4	MA12-1, MA12-2, MA12-4, MA12-9, MA12-10	In class open book test Sequences and series, transformations of functions.	10	10	20%		/
Wk. 6 Term 1	MA12-1, MA12-2, MA12-3, MA12-4, MA12-5, MAS12-6, MA12-9, MA12-10	Half Yearly Examination Sequences and series, transformations of functions, trigonometric functions, further differentiation, geometrical applications of differentiation.	10	15	25%		/
Wk. 8 Term 2	MA12-3, MA12-7, MA12-8, MA12-9, MA12-10	In class task with stimulus Integration, statistics, correlation, regression.	15	10	25%		/
Wk. 3-4 Term 3	All possible outcomes	Trial HSC Examination Refer to the task assessment notification for specific content addressed in this examination.	15	15	30%		/
TOTAL			50	50	100%		

COMPONENTS

WEIGHTINGS

A	Understanding, fluency and communication	50%
B	Problem solving, reasoning and justification	50%

OUTCOMES

Code	Descriptor. A student ...
MA12-1	uses detailed algebraic and graphical techniques to critically construct, model and evaluate arguments in a range of familiar and unfamiliar contexts
MA12-2	models and solves problems and makes informed decisions about financial situations using mathematical reasoning and techniques
MA12-3	applies calculus techniques to model and solve problems
MA12-4	applies the concepts and techniques of arithmetic and geometric sequences and series in the solution of problems
MA12-5	applies the concepts and techniques of periodic functions in the solution of problems involving trigonometric graphs
MA12-6	applies appropriate differentiation methods to solve problems
MA12-7	applies the concepts and techniques of indefinite and definite integrals in the solution of problems
MA12-8	solves problems using appropriate statistical processes
MA12-9	chooses and uses appropriate technology effectively in a range of contexts, models and applies critical thinking to recognise appropriate times for such use
MA12-10	constructs arguments to prove and justify results and provides reasoning to support conclusions which are appropriate to the context

COMPONENTS

WEIGHTINGS

A	Performance core	10%
B	Musicology core	10%
C	Composition core	10%
D	Aural core	25%
E	Electives (performance, composition or musicology)	45%

OUTCOMES

Code	Descriptor. A student ...
H1	performs stylistically, music that is characteristic of topics, studied, both as a soloist and as a member of an ensemble
H2	reads, interprets, discusses and analyses simple musical scores that are characteristic of the topics studied
H3	improvises and composes music using the range of concepts for familiar sound sources reflecting the cultural and historical contexts studied
H4	articulates an aural understanding of musical concepts and their relationships in a wide variety of musical styles
H5	critically evaluates and discusses performances and compositions
H6	critically evaluates and discusses the use of the concepts of music in works representative of the topics studied and through wide listening
H7	understands the capabilities of performing media, incorporates technologies into composition and performance as appropriate to the topics studied
H8	identifies, recognises, experiments with, and discusses the use and effects of technology in music
H9	performs as a means of self-expression and communication
H10	demonstrates a willingness to participate in performance, composition, musicology and aural activities
H11	demonstrates a willingness to accept and use constructive criticism

Personal Development, Health and Physical Education

Course: Higher School Certificate

TOTAL			40	60	100%		

COMPONENTS

WEIGHTINGS

A	Knowledge and understanding of course content	40%
B	Skills in critical thinking, research, analysis and communication	60%

OUTCOMES

Code	Descriptor. A student ...
H1	describes the nature, and justifies the choice, of Australia's health priorities
H2	analyses and explains the health status of Australians in terms of current trends and groups most at risk
H3	analyses the determinants of health and health inequities
H4	argues the case for health promotion based on the Ottawa charter
H5	explains the different roles and responsibilities of individuals communities and governments in addressing Australia's health priorities
H6	demonstrates a range of personal health skills that enables them to promote and maintain health
H7	explains the relationship between physiology and movement potential
H8	explains how a variety of training approaches and other interventions enhance performance and safety in physical activity
H9	explains how movement skill is acquired and appraised
H10	designs and implements training plans to improve performance
H11	designs psychological strategies and nutritional plans in response to individual performance needs
H12	analyses the influences of sociocultural factors on the way people participate in and value physical activity and sport (Option 2)
H13	selects and applies strategies for the management of injuries and the promotion of safety in sport and physical activity (Option 3)
H14	argues the benefits of health-promoting actions and choices that promote social justice
H15	critically analyses key issues affecting the health of Australians and proposes ways of working towards better health for all
H16	devises methods of gathering, interpreting and communicating information about health and physical activity concepts
H17	selects appropriate options and formulates strategies based on a critical analysis of the factors that affect performance and safe participation.

OUTCOMES

Code	Descriptor. A student ...
M1	generates a characteristic style that is increasingly self-reflective in their photographic and/or video and/or digital practice
M2	explores concepts of artist/photographer, still and moving works, interpretations of the world and audience response, in their making of still and/or moving works
M3	investigates different points of view in the making of photographs and/or videos and/or digital images
M4	generates images and ideas as representations/simulations in the making of photographs and/or videos and/or digital images
M5	develops different techniques suited to artistic intentions in the making of photographs and/or videos and/or digital images
M6	takes into account issues of occupational health and safety in the making of photographs and/or videos and/or digital works
CH1	generates in their critical and historical practice ways to interpret and explain photography and/or video and/or digital imaging
CH2	investigates the roles and relationships among the concepts of artist, work, world and audience in critical and historical investigations
CH3	distinguishes between different points of view and offers interpretive accounts in critical and historical studies
CH4	explores ways in which histories, narratives and other accounts can be built to explain practices and interests in the fields of photography and/or video and/or digital imaging
CH5	recognises how photography and/or video and/or digital imaging are used in various fields of cultural production

Physics

Course: Higher School Certificate
Course Category: A
Assessment Period: 2024

ASSESSMENT TASKS

■ Times are approximate. Exact dates will be confirmed with a minimum of two weeks' notice.

Due Date	Focus Outcomes	Task type and overview of content and skills addressed in task	Component		Weight (%)	Your Mark	Your Rank
			A	B			
Wk. 8 Term 4	PH11/12-4, PH11/12-5, PH11/12-6, PH11/12-7, PH12-12	Practical task Advanced mechanics.	15	5	20%		/
Wk. 8 Term 1	PH11/12-1, PH11/12-2, PH11/12-3, PH11/12-4, PH11/12-5, PH12-13	Depth study: processing / modelling task Electromagnetism.	20	5	25%		/
Wk. 6 Term 2	PH11/12-2, PH11/12-3, PH11/12-4, PH11/12-7, PH12-14	Literature review / investigation Nature of light.	15	10	25%		/
Wk. 3-4 Term 3	PH11/12-2, PH11/12-4, PH11/12-5, PH11/12-6, PH12-12, PH12-13, PH12-14, PH12-15	Trial HSC Examination Refer to the task assessment notification for specific content addressed in this examination.	10	20	30%		/
TOTAL			60	40	100%		

COMPONENTS

WEIGHTINGS

A	Skills in working scientifically	60%
B	Knowledge and understanding	40%

OUTCOMES

Code	Descriptor. A student ...
PH11/12-1	develops and evaluates questions and hypotheses for scientific investigation
PH11/12-2	designs and evaluates investigations in order to obtain primary and secondary data and information
PH11/12-3	conducts investigations to collect valid and reliable primary and secondary data and information
PH11/12-4	selects and processes appropriate qualitative and quantitative data and information using a range of appropriate media
PH11/12-5	analyses and evaluates primary and secondary data and information
PH11/12-6	solves scientific problems using primary and secondary data, critical thinking skills and scientific processes
PH11/12-7	communicates scientific understanding using suitable language and terminology for a specific audience or purpose
PH12-12	describes and analyses qualitatively and quantitatively circular motion and motion in a gravitational field, in particular, the projectile motion of particles
PH12-13	explains and analyses the electric and magnetic interactions due to charged particles and currents and evaluates their effect both qualitatively and quantitatively
PH12-14	describes and analyses evidence for the properties of light and evaluates the implications of this evidence for modern theories of physics in the contemporary world
PH12-15	explains and analyses the evidence supporting the relationship between astronomical events and the nucleosynthesis of atoms and relates these to the development of the current model of the atom

Science Extension

Course: Higher School Certificate
Course Category: A
Assessment Period: 2024

ASSESSMENT TASKS

■ Times are approximate. Exact dates will be confirmed with a minimum of two weeks' notice.

Due Date	Focus Outcomes	Task type and overview of content and skills addressed in task	Component			Weight (%)	Your Mark	Your Rank
			A	B	C			
Wk.4 Term 1	SE-1, SE-3, SE-6, SE-7	Oral presentation Based on research proposal.	15	5	10	30%		/
Wk.6 Term 2	SE-4, SE-5, SE-7	Case study Statistical analysis.	5	15	10	30%		/
Wk.6 Term 3	SE-1, SE-2, SE-3, SE-4, SE-5, SE-6, SE-7	Scientific research report Based on chosen research topic.	10	10	20	40%		/
TOTAL			30	30	40	100%		

COMPONENTS

WEIGHTINGS

A	Communicating scientifically	30%
B	Gathering, recording, analysing and evaluating data	30%
C	Application of scientific research skills	40%

OUTCOMES

Code	Descriptor. A student ...
SE-1	refines and applies the Working Scientifically processes in relation to scientific research
SE-2	analyses historic and cultural observations, ethical considerations and philosophical arguments involved in the development of scientific knowledge and scientific methods of inquiry
SE-3	interrogates relevant and valid peer-reviewed scientific research to develop a scientific research question, hypothesis, proposal and plan
SE-4	uses statistical applications, mathematical processes and/or modelling to gather, process, analyse and represent reliable and valid datasets
SE-5	analyses and applies the processes used in reliable and valid scientific research to solve complex scientific problems and inform further research
SE-6	analyses and reports on a contemporary issue or an application of science informed by either primary or secondary-sourced data, or both, in relation to relevant publicly available data sets
SE-7	communicates analysis of an argument or conclusion incorporating appropriate scientific language and referencing techniques in a scientific report

Software Design and Development

Course: Higher School Course
Course Category: A
Assessment Period: 2024

ASSESSMENT TASKS

■ Times are approximate. Exact dates will be confirmed with a minimum of two weeks' notice.

Due Date	Focus Outcomes	Task type and overview of content and skills addressed in task	Component		Weight (%)	Your Mark	Your Rank
			A	B			
Wk. 9 Term 4	H1.1, H1.2, H1.3, H2.1, H2.2, H3.1, H6.1	Research project Software development process.	30		30%		/
Wk. 9 Term 2	H3.2, H4.1, H4.2, H4.3, H5.1, H5.2, H5.3, H6.2, H6.3, H6.4	Practical design project Development of a solution package.		40	40%		/
Wk. 3-4 Term 3	All outcomes possible	Trial HSC Examination Refer to the task assessment notification for specific content addressed in this examination.	20	10	30%		/
TOTAL			50	50	100%		

COMPONENTS

WEIGHTINGS

A	Knowledge and understanding of course content	50%
B	Knowledge and skills in the design and development of software solutions	50%

OUTCOMES

Code	Descriptor. A student ...
H1.1	explains the interrelationship between hardware and software
H1.2	differentiates between various methods used to construct software solutions
H1.3	describes how the major components of a computer system store and manipulate data
H2.1	explains the implications of the development of different languages
H2.2	explains the interrelationship between emerging technologies and software development
H3.1	identifies and evaluates legal, social and ethical issues in a number of contexts
H3.2	constructs software solutions that address legal, social and ethical issues
H4.1	identifies needs to which software solutions are appropriate
H4.2	applies appropriate development methods to solve software problems
H4.3	applies a modular approach to implement well-structured software solutions and evaluates their effectiveness
H5.1	applies project management techniques to maximise the productivity of the software development
H5.2	creates and justifies the need for the various types of documentation required for a software solution
H5.3	selects and applies appropriate software to facilitate the design and development of software solutions
H6.1	assesses the skills required in the software development cycle
H6.2	communicates the processes involved in a software solution to an inexperienced user
H6.3	uses and describes a collaborative approach during the software development cycle
H6.4	develops and evaluates effective user interfaces, in consultation with appropriate people

Studies in Catholic Thought 1 unit

Course: Higher School Certificate
Course Category: NESA Endorsed Course (will NOT contribute to an ATAR)
Assessment Period: 2024

ASSESSMENT TASKS

■ Times are approximate. Exact dates will be confirmed with a minimum of two weeks' notice.

Due Date	Focus Outcomes	Task type and overview of content and skills addressed in task	Component				Weight (%)	Your Mark	Your Rank
			A	B	C	D			
Wk. 8 Term 4	SCT12-4, SCT12-5, SCT12-7, SCT12-10	Multi modal presentation Develop and produce a personal view on the challenge of evil and suffering in the world.	15	10	5	5	35%		/
Wk. 3 Term 2	SCT12-4, SCT12-5, SCT12-8, SCT12-9	Service proposal and evaluation Propose, enact and evaluate acts of service or self-sacrifice.	10	5	10	10	35%		/
Wk. 3-4 Term 3	SCT12-1, SCT12-2, SCT12-3, SCT12-4, SCT12-5, SCT12-6, SCT12-9, SCT12-10	Examination Critically investigate an area of Catholic social teaching in exam conditions.	15	5	5	5	30%		/
TOTAL			40	20	20	20	100%		

COMPONENTS

WEIGHTINGS

A	Knowledge and understanding of course content	40%
B	Religious skills in: (a) using Scripture and Catholic Church; (b) documents analysis, synthesis and evaluation based on evidence from Scripture, theology, philosophy and other relevant sources	20%
C	Inquiry and research skills	20%
D	Communication of religious ideas and understanding in appropriate forms	20%

OUTCOMES

Code	Descriptor. A student ...
SCT12-1	analyses how Scripture and other relevant Church documents, with the integration of faith and reason, continues to guide the Church
SCT12-2	describes the theology of the principal teachings and philosophy of the Catholic Church and key developments over time, which have shaped the Church's response to a range of issues
SCT12-3	describes the significance of historical features and developments of the Catholic Church with reference to key people and issues
SCT12-4	explains the contributions of the Catholic tradition to the understanding of what is good, true and beautiful in society, using a range of examples
SCT12-5	analyses the role of the Catholic Church in guiding believers in facing the challenges of society
SCT12-6	Synthesises and interprets a range of writings including Scripture and Church documents that inform Catholic theology
SCT12-7	explains and evaluates developments in theological and philosophical traditions of the Catholic Church to support a religious understanding
SCT12-8	explains and evaluates the human expression of Catholic faith in culture
SCT12-9	plans and conducts investigations into a range of religious issues, and presents Catholic thinking using relevant evidence and sources
SCT12-10	communicates religious understanding using theological knowledge, religious concepts and terms, in appropriate and well-structured forms

Studies of Religion 1 unit

Course: Higher School Certificate
Course Category: A
Assessment Period: 2024

ASSESSMENT TASKS

■ Times are approximate. Exact dates will be confirmed with a minimum of two weeks' notice.

Due Date	Focus Outcomes	Task type and overview of content and skills addressed in task	Component				Weight (%)	Your Mark	Your Rank
			A	B	C	D			
Wk. 8 Term 4	H4, H5, H6, H7, H8, H9	Research and literature review task Religious Tradition: Christian Bioethics.	5	5	20		30%		/
Wk. 6 Term 1	H4, H5, H6, H7, H8, H9	Half Yearly Examination Religious Traditions.	15	5		10	30%		/
Wk. 3-4 Term 3	All outcomes possible	Trial HSC Examination Refer to the task assessment notification for specific content addressed in this examination.	20	10		10	40%		/
TOTAL			40	20	20	20	100%		

COMPONENTS

WEIGHTINGS

A	Knowledge and understanding of course content	40%
B	Source-based skills	20%
C	Investigation and research	20%
D	Communication of information, ideas and issues in appropriate forms	20%

OUTCOMES

Code	Descriptor. A student ...
H1	explains aspects of religion and belief systems
H2	describes and analyses the influence of religion and belief systems on individuals and society
H3	examines the influence and expression of religion and belief systems in Australia
H4	describes and analyses how aspects of religious traditions are expressed by their adherents
H5	evaluates the influence of religious traditions in the life of adherents
H6	organises, analyses and synthesises relevant information about religion from a variety of sources, considering usefulness, validity and bias
H7	conducts effective research about religion and evaluates the findings from the research
H8	applies appropriate terminology and concepts related to religion and belief systems
H9	coherently and effectively communicates complex information, ideas and issues using appropriate written, oral and graphic forms

Studies of Religion 2 unit

Amended: 27 March 2024

Course: Higher School Certificate
Course Category: A
Assessment Period: 2024

ASSESSMENT TASKS

Visual Arts

Course: Higher School Certificate
Course Category: A
Assessment Period: 2024

ASSESSMENT TASKS

■ Times are approximate. Exact dates will be confirmed with a minimum of two weeks' notice.

Due Date	Focus Outcomes	Task type and overview of content and skills addressed in task	Component		Weight (%)	Your Mark	Your Rank
			A	B			
Wk. 8 Term 4	H1, H2, H3, H4, H5, H6	Development of the body of work Development of concepts and skills – visual arts diary submission.	20		20%		/
Wk. 8 Term 1	H7, H8, H9, H10	Extended response Case study response.		20	20%		/
Wk. 8 Term 2	H1, H2, H3, H4, H5, H6	Resolving the body of work Body of work – 95% completed and visual arts diary submission.	30		30%		/
Wk. 3-4 Term 3	H7, H8, H9, H10	Trial HSC Examination Refer to the task assessment notification for specific content addressed in this examination.		30	30%		/
TOTAL			50	50	100%		

COMPONENTS

WEIGHTINGS

A	Artmaking	50%
B	Art criticism and art history	50%

OUTCOMES

Code	Descriptor. A student ...
H1	initiates and organises artmaking practice that is sustained, reflective and adapted to suit particular conditions
H2	applies their understanding of the relationship among the artist, artwork, world and audience through the artmaking of a body of work
H3	demonstrates an understanding of the frames when working independently in the making of art
H4	selects and develops subject matter and forms in a particular way as representation in artmaking
H5	demonstrates conceptual strength in the production of a body of work that exhibits coherence and may be interpreted in a range of ways
H6	demonstrates technical accomplishment, refinement and sensitivity appropriate to the artistic intentions within a body of work
H7	applies their understanding of practice in art criticism and art history
H8	applies their understanding of the relationship among the artist, artwork, world and audience
H9	demonstrates an understanding of how the frames provide for different orientations to critical and historical investigations of art
H10	constructs a body of significant art histories, critical narratives and other documentary accounts of representation in the visual arts

Work Studies 1 unit

Course: Higher School Certificate
Course Category: Content Endorsed Course (will NOT contribute to an ATAR)
Assessment Period: 2024

ASSESSMENT TASKS

■ Times are approximate. Exact dates will be confirmed with a minimum of two weeks' notice.

Due Date	Focus Outcomes	Task type and overview of content and skills addressed in task	Component		Weight (%)	Your Mark	Your Rank
			A	B			
Wk. 8 Term 4	2, 5	Written report Report on effective workplace communication practices.	30		30%		/
Wk. 8 Term 1	1, 6, 7, 9	Group written and oral presentation The benefits and disadvantages of teamwork directed activities in the workplace.		40	40%		/
Wk. 10 Term 2	3, 4, 8	Information booklet Managing work and life commitments.		30	30%		/
TOTAL			30	70	100%		

COMPONENTS

WEIGHTINGS

A	Knowledge and understanding	30%
B	Skills	70%

OUTCOMES

Code	Descriptor. A student ...
1	investigates a range of work environments
2	examines different types of work and skills for employment
3	analyses employment options and strategies for career management
4	assesses pathways for further education, training and life planning
5	communicates and uses technology effectively
6	applies self-management and teamwork skills
7	utilises strategies to plan, organise and solve problems
8	assesses influences on people's working lives
9	evaluates personal and social influences on individuals and groups
